

UltraVideo CatX HDMI Extender

HDMI signal extension via Cat6 FTP cable.

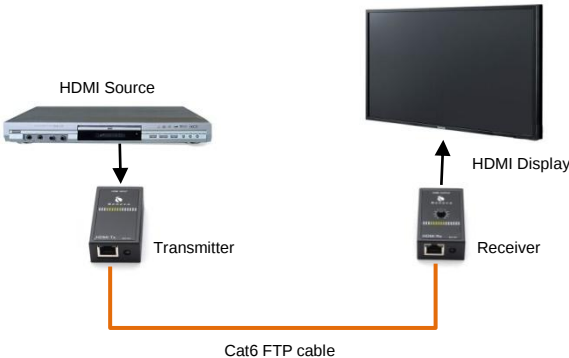

Model: BHE101

The HDMI Cat-X Distribution System is the perfect solution for Digital Signage, public display and large scale demonstration. These transmitter and receivers can convey lucid digital needs for your distribution system to be broadcasted. The comprehensive product range can be easily combined to correspond with almost every application through Cat-X cable. By taking the advantage of Cat5/5e/6 FTP cable, installation is made simple and cost effective while splitting or extending HDMI is required.

Connection
